

DD/S 68-2815

4 June 1968

MEMORANDUM FOR: General Counsel

Larry:

As you know, we are in the process of revising our applicant testing system. The new test, an initial draft copy of which is attached, is to be identified as CIA as recruiters make arrangements with university officials to have the test given on campus or nearby and identifiable with CIA if a question as to connection is raised. The Agency's sponsorship will not be apparent on the test papers and the association will not be volunteered publicly.

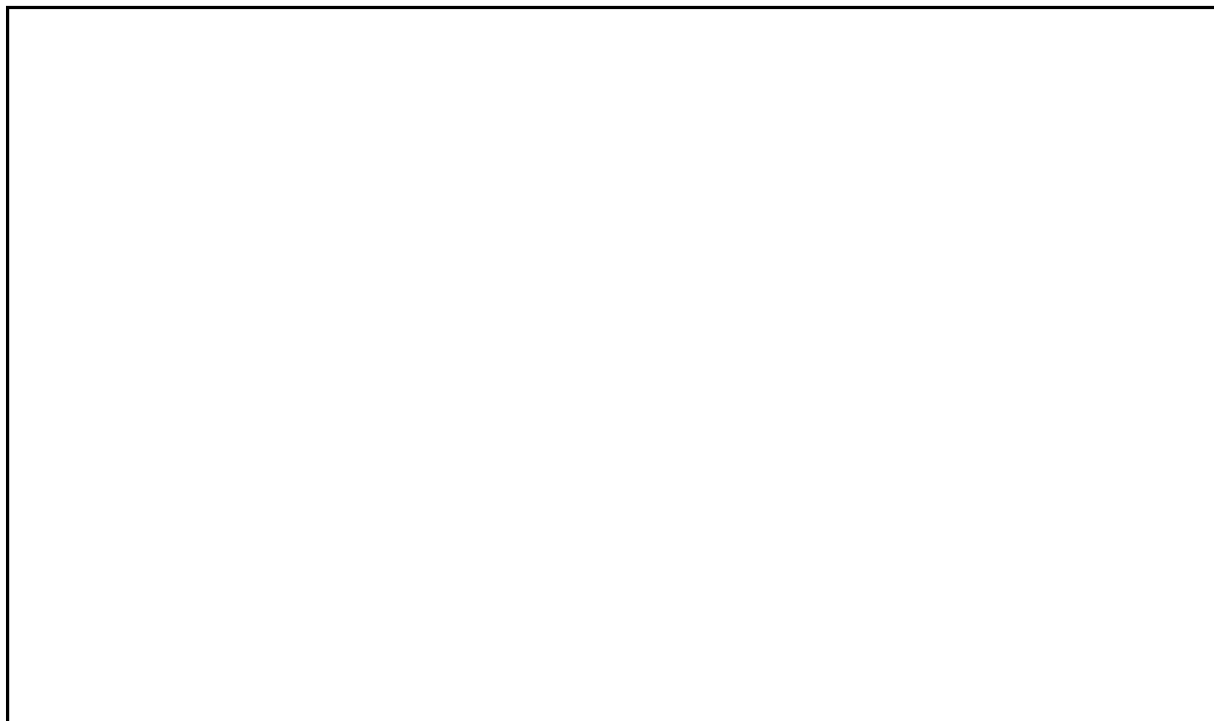

It is obviously important that we review the attached papers carefully to ensure we do not include any questions or statements which might subject the Agency to embarrassment or ridicule or invasion of privacy type pressure.

We had hoped to have the test in place by 1 July, but it is now evident that we are unlikely to make that date, since the revised test has just been completed. In the interest of keeping the time lag at a minimum, we are trying to complete the review by all parties in the next few days. I would very much appreciate your giving the attached a very hard look and providing your comments by Friday, 7 June 1968. I believe the afternoon section contains the test segments most likely to be worrisome. As a possible assist, we have raised eyebrows at the following:
